Note of the Editor in Chief

Editor in Chief

Peer Journal International Review (IR) belongs to that rare group of scientific journals, which encourage multidisciplinary approach on various topics. Therefore, in its content one can find topics which are being analyzed from the economic, social, psychological, political and other aspects. That makes this scientific Journal interesting and useful reading material for scientists, experts and other readers, which are interested in the same or similar scientific disciplines.

The Journal IR is published twice a year as a double issue in English language by the Faculty for Business Economics and Entrepreneurship from Belgrade.

We welcome manuscripts from academics, independent scholars, practitioners and students.

Feel free to reach out directly with comments and proposals!

With warmest regards,

Academician Mirjana Radovic-Markovic
